

Notice of Circulation for Comment: Draft Terms of Reference

As part of the planning process for the Southwestern Landfill Proposal, Walker Environmental Group (WEG) is providing notice that a **DRAFT Terms of Reference** is available for review and comment.

The DRAFT Terms of Reference outlines the framework for the preparation and review of the Environmental Assessment for the proposed Southwestern Landfill. WEG plans to submit the final version of the Terms of Reference for review to the Ministry of the Environment in late July 2013 and is seeking input from interested parties. We will incorporate input we receive into the final version of the Terms of Reference that will be submitted to the Ministry of the Environment.

The Walker Environmental Group is considering a Proposal that will grow our waste management business into Oxford County. The Southwestern Landfill Proposal seeks to develop a modern landfill in a mined quarry in Zorra Township – specifically, the Carmeuse Lime (Canada) Beachville Operations located at 374681 37th Line (Oxford County Road 6), Zorra Township. If approved, the site will receive solid non-hazardous waste generated by businesses and communities in Ontario. The proposed site will have an active life of approximately 20 years and we expect, will become the cornerstone for the development of a ‘campus’ of environmental businesses in Oxford County that will support local and regional economic development.

You may wish to review the **DRAFT Terms of Reference** during normal business hours at the following locations:
